

## **The Role of Volunteers**

Volunteers are the heart of Habitat Texarkana. From board members to those directly involved in construction, volunteers make a world a difference. Our volunteers build houses, raise funds, work in the administrative office, provide lunch for volunteers at the work site, work at our ReStore, serve as board members, staff various committees and do much, much more for the Texarkana AR and TX community. Habitat volunteers give an average of 4000 hours in service to the organization each year! As a matter of fact, volunteers are the reason we can build affordable, decent houses. Construction of Habitat houses is made possible through the labor of our homeowners working side by side with dedicated Texarkana volunteers every year. On average, construction volunteers save the organization \$20,000.00 in labor costs. These savings are passed directly to the homeowner.

## **ReStore Support**

Our Restore sells used and new building materials to help fund our mission. ReStore volunteers help with donation sorting, customer service, and more. Contact the ReStore about available opportunities.

## **Build & Repair Homes**

No construction experience required! Work alongside Habitat families in building their homes and help with home repair projects. Volunteer as an individual or with a group.
